Dear Ms. Fuerst:

Five (5) copies of the Draft Phase I Air Quality Report for the Galena subsite, Cherokee County Site are being sent to you from our Milwaukee office. As per our telephone conversation, this submittal includes only two copies of the extensive appendix material.

There will be some modifications made, prior to the FINAL DRAFT report, so that this report is identified as a supplemental section of the FINAL DRAFT Phase I report already submitted. I will discuss this with you more after you have had time to read this draft.

Sincerely,

Richard E. Moos, Ph.D.  
SPM, Cherokee County Site
